- SWOT and PESTEL analyses
- Financial performance review

### Solution Design

We collaborate with your team to develop tailored solutions that address your specific needs and align with your organizational culture. This phase involves:-

- Data analysis and benchmarking
- Solution ideation workshops
- Cost-benefit analysis of proposed solutions - Implementation roadmap development
- Change impact assessment

### Implementation

We don't just hand over a report and walk away. We work alongside your team to bring solutions to life. Our implementation support includes:

- Project management
- Change management and communication support
- Training and capability building
- Regular progress reviews and course corrections

### Evaluation and Refinement

We continuously monitor the impact of our interventions and make necessary adjustments. This ongoing process includes:

- KPI tracking and reporting
- Regular client feedback sessions
- Post-implementation reviews
- Continuous improvement recommendations

## Advaith Global Services

### Flexible Pricing Solutions

At Advaith Global Services (AGS), we understand that each client's needs are unique. That's why we've developed a versatile pricing model designed to align with your specific requirements and financial considerations.

#### Our Key Services

##### Charges per Service

For clients seeking specific, targeted assistance, we offer a pay-per-service model. You only pay for the services successfully rendered, allowing for precise budget control and clear cost-benefit analysis.

##### Overall Services (End to End)

For comprehensive projects or ongoing partnerships, we provide end-to-end pricing. This can be structured on an assignment-by-assignment basis or as an annual contract, depending on your needs. This model is ideal for clients requiring continuous support across multiple service areas.

##### Profit Sharing

For clients looking to align our success directly with theirs, we offer a profit-sharing model. In this arrangement, AGS receives a percentage of the profits generated from our collaboration. This can be a one-time payment or structured in installments, tailored to each specific case.

##### Hybrid Approach

Recognizing that some projects require a more nuanced approach, we also offer a hybrid model. This combines upfront service charges with a profit-sharing component, balancing immediate costs with long-term value creation.
